Part 4, pre-registered

Thin, $\hat{C}_3$ (primary)

Mid, $\hat{C}_3$

Thick, $\hat{C}_3$

Part 4, post hoc (tick size)

\+ relative tick controls

Drop tick-change symbols (4 left)

Same tick as training only

Outcome in ticks

$\hat{C}_3$ percentile within symbol

Part 5, pre-registered (new symbols)

Thin, $\hat{C}_3$ (primary)

Momentum term $\kappa^2 \eta q$

Reversion term $(1 - a)\kappa$

Depth term $\varphi\varepsilon$

Unit-free ratio

Not thin, $\hat{C}_3$

Part 5, post hoc (price impact)

$\hat{C}_3$ + four impact controls

$\hat{\kappa}$ alone

Part 6, pre-registered (fresh days)

Thin, $\hat{C}_3$ + impact controls (primary)

Gain multiple (unit-free)

Log reversion half-life (unit-free)

$\hat{C}_3$ without depth

Mid, $\hat{C}_3$

Part 9, pre-registered (beyond volatility forecasts)

Thin, $\hat{C}_3$ (primary)

Summed response S_{60}

Gain multiple (unit-free)

Mid, $\hat{C}_3$

Part 13, post hoc (against VPIN)

VPIN beyond the Part 9 baseline

$\hat{C}_3$ beyond baseline + VPIN

Part 7, pre-registered (Bybit)

$\hat{C}_3$ without depth

Part 10, pre-registered (Bybit, order-book depth)

$\hat{C}_3$ (primary)

$\hat{C}_3$ without depth

Summed response S_{60}

Part 14, pre-registered (thin US stocks)

Thin, $\hat{C}_3$ without depth (primary)

Summed response S_{60}

Reversion term

Momentum term

Mid control, $\hat{C}_3$ without depth

Part 15, pre-registered (untouched days, frozen model)

Thin, $\hat{C}_3$ (primary)

Summed response S_{60}

Part 16, pre-registered (untouched symbols)

Thin, $\hat{C}_3$ (primary 1)

$\hat{C}_3$ beyond baseline + VPIN (primary 2)

VPIN beyond the Part 9 baseline

Summed response S_{60}

Part 17, pre-registered (new venue: Coinbase)

Thin, $\hat{C}_3$ without depth (primary)

Order-splitting placebo

VPIN

Mid control, $\hat{C}_3$ without depth

Part 18, post hoc (order-splitting placebo, Binance)

Part 9 sample, real $\hat{C}_3$

Part 9 sample, placebo

Part 16 sample, placebo
